DOMINATOR®

SMART OPENER SMART PHONE CONTROL APP

## QUICK SETUP GUIDE

DOMINATOR SMART GARAGE ACCESS

The Smart Opener's smart phone control feature works via your home's WiFi network. Initial set up involves linking your phone app and Smart opener to your home network so that you can reliably operate your door from the app.

This user guide will show you the steps required to get you started.

BEFORE YOU START:

1. Have your Smart Opener and garage door operating via remote control.
2. Ensure your Smart Opener is within range of your home WiFi router.
3. Know your home WiFi password.
4. Download the Dominator App. (Scan one of the QR codes below.)
5. Click on "Get Started" & follow the steps.
