WARNING !: The battery is hazardous and must be kept out of reach of children. The battery can cause severe or fatal injuries within 2 hours or less if swallowed or placed inside any part of the body. If you suspect the battery has been swallowed or placed inside any part of the body, **SEEK IMMEDIATE** medical attention.

5.0 SMART PHONE CONTROL

(Smart Pro & Smart Only)

The Smart Phone Control works via your home's WiFi network. Initial set up involves linking your phone app and smart opener to your home network.

WARNING!: This device allows for operation of the door when not in line-of-sight of the door and opener. The door may operate unexpectedly, therefore do not allow anything to stay in or near the path of the door.

BEFORE YOU START

Download the Dominator App to your smartphone

Ensure limits are set prior to connecting to wifi

The home WiFi router is within range of opener

STEP ONE

Remove controls cover & Press repeatedly

until network LED is lit

STEP TWO

HOLD for 5 sec

LED will turn PURPLE (HOTSPOT ON)

STEP THREE

Go to phone settings, then WiFi and select (DOM000000)

Open APP and click START

STEP FOUR

Set up new Smart Hub in app

Smart Hub connect appears, ensure WiFi network = (DOM000000)

STEP FIVE

Network LED and light will flash.

Press

Follow instructions in the app
Network LED will turn Blue then return controls cover

6.0 TROUBLESHOOTING

Main Light = Service / Warning Indicator:

Requirements for a service and user warnings are indicated after operation by the main light repeatable flashing OFF a number of times followed by a pause.

The below table identifies the issues and remedies

	Issue	Remedy
1	Normal operation (door is fully open)	
2	PE is preventing door from moving	Clear away any obstructions. Test Door. If unable to move the door and suspect beam is faulty, enter Safety Beam Emergency Close by pressing and holding a pre-coded transmitter button until the door closes.
3	Wireless Auto-Lock battery is low	Change Auto-lock battery
4	Wireless PE battery is low	Change PE Battery
5	Wireless Auto-Lock is not unlocked and preventing door moving	Check Auto-Lock, test by pressing emergency release button on the lock and the test door operation.
6	Maintenance is due after pre-set number of cycles.	Contact dealer to arrange service.
7	Standby battery is faulty	Contact 0800 366 462 within New Zealand for assistance.
8	Door was obstructed	Clear away any obstructions and test door opens/closes correctly. (if the door is damaged, contact a door professional)
9	Motor overloaded or stalled	Contact dealer to arrange a door service.
10	Unit running on battery power (Optional)	Main light will flash (3) three times at the start of the cycle to indicate the opener is running from battery backup and 10 flashes at the end of cycle. Check power supply.

7.0 CARING FOR YOUR OPENER

Preventative servicing of your garage door and opener, is important. Your garage door is made up of numerous moving parts designed to lift and lower your door safely and efficiently.

Ongoing preventative servicing ensures that your door continues to function within factory specifications, greatly reduces the risk of failure and repair bills down the track and ensure you maintain your Warranty.

Refer to your Owners Opener Handbook for your service schedule available [HERE](#).

Refer to the installation manual for monthly testing procedures in Section 13 to ensure garage door is fit for use available [HERE](#).

Online warranty details are available [HERE](#).

8.0 NEED A SERVICE CALL?

If the opener needs a service please call the dealer who installed the garage door opener (their contact details are usually on a sticker on the back of your garage door).
