# DOMINATOR<sup>®</sup>

GARAGE DOORS & OPENING SYSTEMS

## Secure garage door control at a touch of a button

Dominator automated garage door openers come standard with Tri-Tran+ remote control technology which delivers:

- Advanced security against code grabbing devices that attempt to gain access to your home
- Reliable operation – rest assured that your remote will work when you need it to
- Excellent operating range
- No interference from other wireless devices such as baby monitors and door bells
- 4 remote buttons so that you can operate multiple garage doors (e.g. home, bach, automatic gate)

Featuring  
**Tri-Tran+**  
128-bit Technology

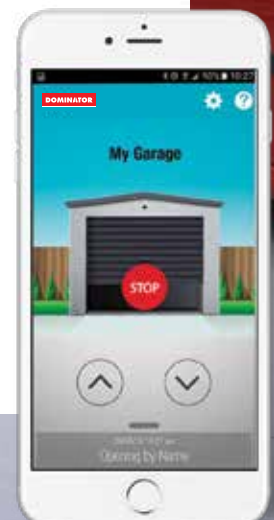

## Smart phone control kit

**A smarter way to control your garage door.**

Dominator's optional Smart Phone Control Kit lets you control your garage door with your Android or Apple smart phone wherever you are in the world, so now you'll always know whether you shut your garage door! \*

- Smart, simple control of your garage door via our easy to use app.
- Secure home access – with real-time alerts, 24/7 monitoring and activity logs.\*

\* Subject to cellular and WiFi connection and availability.

## Panel-Pro

Quiet, quick and value for money

### Overhead sectional door opener

The Panel-Pro is our entry level garage door opener and has been designed to make your garage automation easy. It offers a quality garage opener at an economical price. It still has all the important features including a 650N DC motor that will drive most standard residential doors.

#### Features

- Smooth and efficient 650N DC motor
- Soft start and stop to reduce door stress
- Automatic courtesy light
- Chain drive or super quiet belt option

## Advance

Super quiet, powerful operation

### Overhead sectional door opener

If you want the best performance with super quiet operation, then Advance is the opener of choice. It effortlessly delivers smooth, reliable door control at the touch of a button. It includes a powerful 1200N DC motor with the flexibility to vary the speed and power output according to the door type.

#### Features

- Heavy duty 1200N DC motor
- Soft start and stop to reduce door stress
- Long lasting LED automatic lights
- Intelligent sensitivity system with automatic reverse – minimising the risk of damage to people, pets and property
- Chain drive or super quiet belt option

## Excel

Smart, simple and secure

### Roller door opener

The Dominator Excel is a slim and reliable roller door opener, which has the power to effortlessly operate the majority of residential rolling doors.

#### Features

- Ultra compact design - it can be installed in almost any space
- Powerful yet quiet 600N motor
- Long lasting LED courtesy lights
- Soft start and stop to reduce door stress

## GDO-10

A giant in rolling door automation

### Roller door opener

The Dominator GDO-10 offers a sophisticated industrial rolling door opener with superior pulling power. It comes as standard with built-in battery backup and a wall mounted LCD control panel that can programme a variety of operating modes for your security and safety.

#### Features

- Logic controls with LCD screen
- Heavy duty 1000N DC motor
- Soft start and stop to reduce door stress
- Manages up to 511 TrioCode™ 128 transmitters
- Built in battery backup

# Accessories

## Safety beams

If you have young children or pets, the addition of infra-red beams provides added safety and security, as the door will automatically stop and reverse if the beam is broken whilst the door is closing.

## Ultra quiet belt drive

If you want an even quieter door, the belt drive is the perfect addition to your motor. It is ideal for reducing noise being transferred inside and is a must have if your bedrooms or living areas are above your garage.

## Entry key pad

Allows entry to the garage without a remote transmitter and is great for children. There's no need to give them a key or transmitter as they can enter the house with their PIN.

## Rechargeable battery backup

In the event of a blackout or other break to the power supply, the opener will still be operational with a rechargeable battery backup.

## Combo access device

This device allows you to open roller doors manually during a power failure using a key to remove the barrel with a cord attached to the disengagement handle. It also allows for key electrical operation.

## Emergency key release

Allows your garage door to be disengaged and operated manually from outside when there is no other garage access available.

## Wall mount remote control

Mounts inside the garage allowing remote door operation. Features Tri-Tran+ technology.

## Extra remotes

Lost your remote or need additional remotes for your family? Talk to your local Dominator dealer about ordering a genuine remote.

## Security system compliant

Dominator openers can be wired into alarm systems. This allows your remote to arm and disarm the alarm.

# Specifications
